

# The UN COND ITION AL COM MUNI CAT ION PRO GRAM

*Creating Presence, Connection  
Action through Unconditional Communication  
with David Firth*

## A Step Change in Your Communication

Join me on a 2.5-day transformational journey to discover the nature, purpose and application of a new paradigm for effective communication and how it can make a significant impact on your business results. This workshop focuses on delivering minimum theory, optimal pragmatic tools, and maximum real-world applications - creating inner and outer habit changes. This upgrade to your communication approach will result in:

- More presence and authenticity as a leader
- A greater capability to engage with people at the level of heart as well as mind; and at the level of vision & purpose as well as detail
- An ability to build more productive working relationships
- More confidence that people will truly listen, understand and act on your expertise
- More positive energy to drive change, collaboration and results.

No matter how technical a change might be, change is always a human journey. There are ways of guiding our peers, customers and clients through change effectively, and there are ways of doing that which only reinforce the very barriers we are trying to overcome. This workshop focuses on powerful ways to do the former in increasingly more effective ways.

## Making Actions Out of Words

I believe this workshop is only complete when you've made a real difference in your business with what you've learned. You'll receive six months of support and coaching to help you reinforce the learned principles and create new routines that optimize a sustainable outcome for your business. You'll be focused on applying new mindsets and skills to a project or activity that will deliver a significant ROI to your business.
